Chronic Posting Guidelines

What is a Chronic Condition?

A chronic condition is any medical disease that is persistent for three months or more and requires long-term medical treatment, mostly to improve symptoms and enhance the quality of life.

How to obtain your monthly Chronic Treatment?

GlobeMed allows you to dispense your chronic medications on monthly basis by directly presenting your insurance ID to any pharmacy that you desire inside the Network. To do this, all you have to do is send us a request for chronic post addition at chronic@globemedegypt.com while attaching the required documents for each medical condition according to the case, and including your mobile number in order to contact you in case of rejected or missing documents for detailed explanation. Chronic diseases have different posting durations. Thus, to renew your treatment or extend your chronic post, further updated supporting documents might be needed.

To know more about the needed documents for each medical condition, please make sure to go through the below mentioned requirements:

1. Diabetes

Diabetes is classified as either a rise in blood glucose levels or drop in insulin levels. Typically, in most cases, diabetic patients have their chronic medications posted till renewal date. Below are the needed documents for first time posting & renewals.
